

# ABOUT THE NATIONAL FALLEN FIREFIGHTERS FOUNDATION

---

The United States Congress created the National Fallen Firefighters Foundation (NFFF) in 1992 to lead a nationwide effort to honor the memories of all U.S. firefighters who died in the line of duty and to provide support to their loved ones. As part of this mission, each October the Foundation hosts the National Fallen Firefighters Memorial Weekend, the official national tribute, in Emmitsburg, Maryland. Through activities offered during the weekend the families of the fallen will find reassurance that their loved ones will not be forgotten, and they have a place to find comfort and compassion.

Beyond the National Fallen Firefighters Memorial Weekend, the NFFF helps families with similar experiences and interests find each other through the Fire Hero Family Network. We provide college scholarships for spouses and children, and coordinate conferences and workshops for parents, spouses, children and co-workers.

Furthermore, the NFFF established Local Assistance State Teams to support fire departments when a line-of-duty death occurs. These teams also help families who may be eligible to file paperwork for the Public Safety Officers' Benefits program administered by the Department of Justice Bureau of Justice Assistance.

Over the years, the Foundation recognized that another way to honor the fallen and support their families is to work with all branches of the fire service to reduce line-of-duty deaths and injuries.

In 2004, the first Firefighter Life Safety Summit was held to address a need to reduce the number of preventable line-of-duty deaths. More than 200 fire service and industry leaders worked together to develop the 16 Firefighter Life Safety Initiatives. Out of those initiatives, the NFFF created Everyone Goes Home®. This program provides free resources and training opportunities to our nation's firefighters that underscore accepting responsibility for our health and safety.

In addition, the Foundation has provided funding for research that examines coronary heart disease, stroke, and diabetes prevention. The NFFF also sponsors meetings to address evolving needs of the fire service community such as cancer prevention and behavioral health issues.

These are just a few examples of the services and programs offered by the Foundation. A Board of Directors and Advisory Committee guide the Foundation's activities. Members represent the private sector, fire and emergency services, fire hero families, and government. With their input, the NFFF will always be ready to fulfill its mission to honor the fallen, assist their families, and prevent line-of-duty deaths.
