A. Once the family has been notified, members of SCEMS should learn of the incident from the department before it hears about it through the media. Members who were on the scene, either as a partner, responder, or Supervisor, should be relieved as quickly as possible. Supervisors will make every attempt to contact their respective shift personnel as soon as possible. This shall include members who may be away on vacation, if their destination is known. Members involved, and other members who may have been emotionally affected, by the serious injury or death of another member should attend a Critical Incident Debriefing held by a trained CISM Team, to be scheduled as quickly as possible. (This will normally be held after the funeral.)

VI. Notifying Others

A. Other members of the community need to be notified after the family and the members of the department.
B. The Director or designee shall be responsible for notifying the County Administrator, who will notify the County Council and other County Officials as needed. Other notifications will be the responsibility of the PIO or his/her designee.

C. Other Departments within the State (DSP, Kent and New Castle Counties) should be notified of the member's death. A request for assistance of manpower should be requested to cover necessary time in Sussex County.

VII. Working with the media

A. The Departmental PIO will ensure notification of the family prior to giving any information to the media. Information to the public should include a prepared statement from the Director or his designee. The Information Office or his designee may handle this.

VIII. Dealing with the Hospital

A. The critically injured paramedic will be transported to the nearest appropriate hospital. SCEMS will establish procedures to deal with local hospitals. (Appendix C, Hospital Liaison Officer)

B. If the critically injured paramedic must be transported to a medical center out of the local area, SCEMS will establish procedures to assist the family in that location.

XII. Assisting the Family After the Funeral

A. SCEMS will maintain contact with the family and establish procedures to ensure ongoing support.

1. Members of the Department must remain sensitive to the needs of the survivors long after the member’s death. The grieving process has no timetable. More than half of the surviving spouses can be expected to develop a post-traumatic stress reaction to the tragedy.

2. Survivors should continue to feel that they are a part of the “medic family.” They should be invited to Department activities to ensure continued contact.

3. Members of the Department are encouraged to keep in touch with the family. Close friends, co-workers and officials should arrange with the family to visit the home from time to time so long as the family expresses a desire to have these contacts continue.

4. The Director should observe the member’s death with a short note to the family, and/or flowers on the grave.

5. Holidays may be especially difficult for the family, particularly if small children are involved. Increased contact with the survivors and additional support is important at these times.
APPENDIX “A”

NOTIFICATION OFFICER

PROCEDURES AND RESPONSIBILITIES

1. It is the responsibility of the on-duty Supervisor to properly notify the Director or Administrator on call of a member who has suffered severe injuries or died.
2. The Director or AOC shall immediately contact the Notification Officer, to inform the next-of-kin.
3. The Department will not release the name of the deceased member before the immediate family is notified.
4. If there is knowledge of a medical problem with an immediate survivor, medical personnel should be available at the residence at the time of notification.
5. Notification will be made in person and never alone. The Director or his designee, Chaplain, or close friend could appropriately accompany the Notification Officer. However, if the aforementioned persons are not readily accessible, notification should not be delayed until these people can gather. If there is an opportunity to get to the hospital prior to the demise of the member, do not wait for the delegation to gather. The family should learn of the death from the Department first and not from the press or other sources.
6. Never make a death notification on the doorstep. Ask to be admitted to the house. Inform family members slowly and clearly of the information you have. If specifics of the incident are known, the Notification Officer should relay as much information as possible to the family. Be sure to use the member’s name during notification. If the member had died, relay that information. Never give the family a false sense of hope. Use words like “died” or “dead” rather than “gone” or “passed away”.
7. Additional notes on notification:
   A. Reactions of the family may include hysteria, anger, fainting, physical violence, shock, etc
   B. Assume a guard position. Ward off well meaning relatives who try to cheer the family up and “take their mind off it”. Perhaps more harm can come from being “brave” and avoiding proper grieving.
   C. Don’t lie to child(ren) about the death or injury. They need to know the basic facts.
   D. Attempt to keep the use of Alcohol and tranquilizers to a minimum.
E. Make a list of names and phone numbers for the family to call if they need assistance. (Doctor, Police, relatives, Friends and your numbers). Place list near the phone.

8. If the family requests to visit the hospital, they should be transported in a departmental vehicle. It is highly recommended that the family not drive themselves to the hospital. If the family insists on driving, a member of the notification team should accompany them in the family car.

9. If young children are at home, the Notification Officer must arrange for baby-sitting needs. This may involve co-workers and their spouses, transportation of the children to a relative’s home or similar arrangements.

10. Prior to departing for the hospital, the Notification Officer should notify the hospital staff and the Hospital Liaison Officer (by telephone, if possible) that a member(s) of the family is en route.

11. The deceased or severely injured member’s parents (if not the immediate next of kin) should be afforded the courtesy of a personal notification whenever possible.

12. If immediate survivors live beyond the Sussex County area, the Notification Officer will contact The Delaware State Police Communications Division at (302) 855-2980 and request the Supervisor. The Notification Officer will advise the communications supervisor of the need to contact survivors due to a severe injury or death of an SCEMS member. The following information will be given to the communications supervisor:
   A. The member’s full name
   B. Survivors Name
   C. The last known address for survivors
   D. The last known telephone number for survivors
   E. Any information to be passed on to survivors regarding member’s injury/death.
   F. A contact name for Sussex County EMS personnel
   G. A contact phone number for Sussex County EMS personnel
   H. Request confirmation of notification from contacting agency

13. In the event of an on-duty injury or death, the external monitoring of radio frequencies may be extensive. Whenever possible, communications regarding notifications should be restricted to the telephone. If the media has obtained the member’s name, they will be advised to withhold the information, pending notification of the next-of-kin.
