

3D FIRE ATTACK SCENARIOS

Practice making tactical firefighting decisions in this interactive virtual tabletop exercise based on fire science research.

EMERGENCY SERVICES CERTIFICATE PROGRAM

Receive the Emergency Services Risk Reduction Program certificate after successful completion of four modules:

- Courage to Be Safe®
- Leadership, Accountability, Culture and Knowledge (LACK)
- After Action Review
- Creating Change in the Fire Service OR Stress First Aid for Fire and EMS Personnel

Instructor-Led Training Courses

Taking Care of Our Own® 8 HOURS

Provides senior fire officials insights on how to prepare for a potential firefighter fatality or serious injury. Includes information about Public Safety Officer Benefits, behavioral health resources and developing a line-of-duty death policy.

Courage to Be Safe® 4 HOURS

Designed to change the culture of accepting firefighter fatalities as a normal occurrence by examining the 16 Firefighter Life Safety Initiatives. Promotes the courage to make the right decisions to help ensure that Everyone Goes Home®.

Visit www.everyonegoeshome.com/training

Leadership, Accountability, Culture and Knowledge 4 HOURS

Explore how fire department leaders can improve firefighter survivability by examining the root causes of line-of-duty deaths.

Leadership So Everyone Goes Home® 4 HOURS

Examine contributing factors that can lead to a firefighter fatality or injury and steps to take to reduce the risk of firefighter fatalities and injuries.

Attributes of Leading 6 HOURS

A highly interactive, practical case study-based format that has attendees explore six essential qualities of successful leaders: competence, grit, wellness, trust, humility, and self-regulation.

FIRE HERO LEARNING NETWORK

THE FREE ONLINE RESOURCE FOR TRAINING FIREFIGHTERS

FIREHEROLEARNINGNETWORK.COM

ABOUT THE FIRE HERO LEARNING NETWORK

The Fire Hero Learning Network is the National Fallen Firefighters Foundation's free fire service virtual training platform delivering critical safety, operations and community outreach programs. The modules are designed for all levels of the fire service (line firefighters through leadership), all types of departments, all jurisdictions and for all types of firefighting activities (structural, wildland, military, fire marshals, etc.). The curriculum was developed by subject matter experts and fire service leaders. After completing each interactive module successfully, users can download a training certificate. Modules are compatible on computers, mobile phones and tablets.

ABOUT THE NATIONAL FALLEN FIREFIGHTERS FOUNDATION (NFFF)

The NFFF was created by Congress in 1992 to honor firefighters who died in the line of duty and help their survivors rebuild their lives. In 2004, the 16 Firefighter Life Safety Initiatives and the Everyone Goes Home® program were created to focus on reducing firefighter fatalities and injuries. For more information on the National Fallen Firefighters Foundation, visit www.firehero.org.

Funding for the Fire Hero Learning Network is provided by DHS/FEMA's Grant Program Directorate for Assistance to Firefighters Grant Program – Fire Prevention and Safety Grants and the U.S. Department of Justice.

FIREHEROLEARNINGNETWORK.COM

Operational Checklists ✓ Download standard and customizable checklists for key fire department operations including building collapse, confined space rescue, engine company operations, hazardous materials, high angle rescue, incident command, safety, swift water rescue, trench rescue and truck company operations.

TRAINING MODULES

Everyone Goes Home® Core Modules

Courage to Be Safe®

Learn how the 16 Firefighter Life Safety Initiatives is an integral part of reducing firefighter fatalities and injuries.

Leadership, Accountability,

Culture and Knowledge

Discover how a balanced approach of leadership can help prevent firefighter fatalities and injuries with practical and specific tips.

Taking Care of Our Own®

Better understand and support the needs of family members and fire service survivors after a line-of-duty death. Also, learn how to create a plan for your fire department in case of a line-of-duty death.

Leader Modules

After Action Review

Learn a simple, systematic and guided process of analyzing, refining and improving incident response using an informal post-incident conversation.

Curbside Manner

Assist civilians when they are in crisis with proven principles including ensuring their safety, understanding their individual needs, meeting those needs, and promoting the connectedness and self-efficiency needed for recovery.

Peer Support Programs for the Fire Service

This module covers the foundational principles of a peer support program and direct users to resources that can help them design and establish a peer support program in their department.

Company Officer Modules

Communication & Mentoring for Company Officers

Gain a better understanding of the interpersonal skills needed as a company officer. Learn tips on how to effectively communicate priorities, understanding and responding to problems and handling difficult and awkward situations.

Company Officer's Health & Safety Responsibilities

Understand the fundamentals of firefighter health and safety including personal commitment to health and safety, peer to leader transition, protocols enforcement, crew resource management and related-NFFF programs.

Other Modules

Creating Change in the Fire Service

View an unscripted roundtable discussion between five fire service leaders about creating change in the fire service and leading a culture of safety. Topics discussed include: making safety a priority, handling resistance, fostering an environment of trust and risk mitigation.

Saving Lives—Inspiring Stories in Community Risk Reduction

Learn from two committed company officers and one unforgettable survivor who have made a significant impact locally and nationally through community risk reduction.

Automatic Fire Sprinkler and Alarm Systems

Review the benefits of automatic fire sprinkler and alarm systems to firefighter health and safety and evaluate a set of core principles to guide a firefighter's interaction with these systems.

Responding to Violent Incidents 2.0

Apply firefighter health and safety principles to violent incident response policies, standard operating procedures and training. Updated in 2021 to include responding to active shooter and civil unrest events.

When an LODD Occurs:

Incident Commanders Speak

This program raises awareness about what incident commanders may face if a line-of-duty death occurs at a scene where they are in command and prepares them to face that challenge should it happen to them.
